“One child, One teacher, One pen and One book can change the world”

I had an earnest desire to build up an institution where education blended in all colors of human values could be given. A harmonious blend of academics, arts, sports, emotions, attitude, creativity, nature and life itself. I feel proud to say that my dream of a quality institution is taking shape through it.

School plays a very important role in changing the society and its future, it helps ignite the young minds and moulds them to be good world citizens as well as good leaders of the nation. I advise all our students to see that what they give to the school is worth giving, give your very best at all times, and also establish your school in your heart and your body shall follow, something of which you can be really proud.

I pray that the almighty continues to lead and guide this prestigious Institution for generations to come.

VIEWS OF THE PRINCIPAL

SHIKSHA THE GURUKUL is a socio-cultural unit of Sarva Shiksha Educational Foundation. The vision of the school is to constitute a conducive environment for learners and create a supportive domain to assimilate intellectual values, aesthetics and academic excellence.

The learners, educators and society play equally important roles in flourishing the objectives and goal of an educational institution. Proper Education enables one to think rationally, decisively and independently.

I believe our appeal as a school rests in our true sense of community. In a secure environment, students feel free to challenge themselves and take risk that will help them in realizing their true potential. We at Shiksha The Gurukul aim to build a community where the students, staff and the parents feel extremely warm and unpretentious.

We aim to produce confident, eloquent, versatile young people, who are ready and well equipped to face the future. Our teachers are open to adopting new techniques and ideas of teaching, combining both traditional and modern methods for preparing our students for unseen future.

We emphasize on both scholastic and co-scholastic areas equally to develop the ability to explore one's own potential and it focuses on inculcation of scientific temperament in learners by the method of 'learning by doing.' The institution strives towards grooming the intellectual and critical thinkers and to facilitate emotional and moral values, to nurture self-esteem, self-reliant and self-confident individuals who can serve the Nation and the global society.

We offer a range of both indoor and outdoor activities, international exposure and much more to address the social and intellectual needs of a student. We aspire to help each and every student embrace an exuberant and hearty life.
